Soft skills

- Communication
- Teamwork
- Creativity
- Leadership
- Dedication

Summary

As a full-stack developer specializing in the MERN stack, I create dynamic, user-centered applications that combine technical expertise with creativity. With a Master's in Digital Humanities and experience in 3D animation and interactive design, I bring a unique perspective to web development. Ready to make an impact in the tech industry, I aim to craft innovative solutions that bridge technology and design.

Projects

IronHub

- Full-stack application using the MERN stack
- Developed and managed a RESTful API
